

# Download Suspension Solution Colloid

In chemistry, a colloid is a mixture in which one substance of microscopically dispersed insoluble particles is suspended throughout another substance. A true solution (or simply a solution) differs from a colloid and a suspension as follows. A true solution is a homogeneous mixture of two or more than two substances ...Based on distinct properties, solutions can be classified into True Solution, Suspension and Colloid. This classification is necessary is necessary to Colloid definition, a substance made up of a system of particles with linear dimensions in the range of about  $10^{-7}$  to  $5 \times 10^{-5}$  cm dispersed in a continuous ...
